

Vanessa Corzine

INTERIOR DESIGNER

SUMMARY

I am a Colombian American designer with a passion for creating unique and cohesive spaces that have an impact on people's lives. With three years of experience owning a design company in South Bay, I was able to transform interior & exterior spaces while designing all of the advertisements for the #1 Remax Real Estate Agent in the Nation. I recently moved to Orange County and I am excited to learn from and become a part of OC's design community.

EXPERIENCE

INTERIOR DESIGNER/OWNER

Vanda Designs

2019 - Present

- Aided clients with small to large scale interior & exterior home projects. Such as paint & material selection, kitchen & bathroom renovations, floorplans and overall floor-to-ceiling decor.

Bristol Pkwy |

Suite 640, Culver

City, CA 90230

Hiring Manager,

I am an advanced senior looking for an internship and would love to spend my Fall semester at Corgan. I am currently a fifth-year Interior Architecture student at San Diego State University and reside in the Los Angeles area. With only two classes left to acquire my B.A., I plan to take one in the fall and one in the spring which will grant me more time to focus on an internship. Since I will only attend one class on Mondays I will be able to work full time the rest of the week and available to start whenever needed.

An important thing to know about me is that I come from a diverse background and am fluent in three languages. When I started my education at UC Riverside, I was fortunate enough to learn about a variety of subjects. While I thoroughly enjoyed learning about these different fields, I came to realize that Interior Design is my passion. Therefore, I decided to transfer to San Diego State University to pursue it full-time.

Over the course of the last five years, I have designed landscapes, assisted in renovating a handful of commercial and residential buildings, volunteered to design the adoption interaction rooms of an animal shelter, and gained some experience while interning at Sisson Design group. I am adept at carrying out a wide variety of design and development projects and can readily conceptualize new ideas as needed through hand and CAD renderings. I work well under pressure and can stay collected during quick deadlines while working diligently to create elaborate spaces. I believe that my positive attitude, passion for design, and strong work ethic will concur with Corgan's mentality.

I have a strong creative flair and eclectic source of knowledge that has drawn me to Interior Design and live by the same design principles as Corgan: empathy, clarity, singularity, locality, and responsibility. My goal is to help create beautiful and functional spaces that make people feel wonder and excitement right when they walk in and I believe Corgan is the best organization to help me accomplish this. If you would like to see my portfolio please visit my website which is listed in the header. I hope to hear back from you soon!

Best Regards,
Vanessa Corzine

About Me

ABOUT ME

Designing spaces and objects have been a part of me since I was very young.

While I enjoy designing residential spaces, my focus is on commercial design. I would love to create spaces that have even the slightest impact on people's lives and where I can strive to create exceptional and unique designs.

Both my Mother and Grandfather are jewelers. I was never intrigued by metal until I took a jewelry and metalsmithing class. To my surprise, I enjoyed it so much that I took the succeeding class the following semester. Now I dream of manipulating metal to form resilient desired objects.

INTERIOR DESIGNER

Hello!

My name is Vanessa Corzine. I was born in Bogotá, Colombia and I currently reside in El Segundo, CA. I graduated from San Diego State University with a Bachelor of Arts emphasized in Interior Architecture.

At SDSU I gained a love for creating with metals, wood, and ceramic. Furthermore, I joined The American Society of Interior Designers (ASID), which has been an amazing experience. Besides making new connections and learning from professionals all over the state, I have been able to be a part of major design events in San Diego. I now hope to do the same in LA.

Designing spaces and objects have been a part of me since I was very young. While I enjoy designing residential spaces, my focus is on commercial design. I would love to create spaces that have even the slightest impact on people's lives and where I can strive to create exceptional and unique designs.
